- d. **Bids of registered firms having valid MI-Dte security clearance will only be accepted.**
- e. Firm must quote items in separate envelopes clearly marked "Technical Offer" and Commercial Offer" in separate categories Anx wise as given below. **IT number must be mentioned on both envelopes: -**

Category	Heading on Envelop (Technical)	Heading on Envelop (commercial)
EXP / MISC Items	<b>Annexure A,B,C,D,E &amp; F</b> (Technical)	<b>Annexure A,B,C,D,E &amp; F</b> (Commercial)

f. **Technical Offer.** The offer must include the following information which will be evaluated by a board:-

- (1) Brand name, specification, country of origin.
- (2) The source / firm authorization for all branded items to be imported by the firms. The firms are also requested to provide authorization / license to import these items.
- (3) Validity of offer should be upto **30 Jun 2026**.
- (4) Delivery period for each item must be mentioned on the quote. Delivery period will start from the date of issuance of POs, if firm considers that delivery will not be possible within 1 x month for local and 3 x months for foreign items. Firm should approach this office before expiry of delivery period.
- (5) The purchaser can waive off any of the conditions stipulated in this tender inquiry and reserve the right to accept or reject thereto.
- (6) Bidders should note that decision of Commandant CASD (EME), Dhamial Camp, Rawalpindi will be final in respect of acceptance / rejection of the offers.
- (7) All samples and supplies will be subject to tests and inspections either by the board of officers constituted for the purpose and any cost incurred on tests / inspections and stores consumed in the same will be borne by the suppliers. Depot may test / inspect samples before placing of purchase orders.
- (8) During warranty period (if stores supplied is/ are backed by warranty), if a faults occurs in supplied stores then supplier will be responsible to either rectify the faults communicated or get the faulty parts replaced within 7 (seven) days of the receipt of information in this regard from the purchaser at his specified places which can be other than the place of delivery of

stores. In case supplier fails to rectify the faults or replace the faulty parts in a specified time then purchaser will have the right to take disciplinary action against the supplier and also impose penalty if considered necessary / appropriate.

- (9) During warranty period it will be the responsibility of the supplier to carry out periodic maintenance of supplied stores as prescribed by the manufacturers free of cost as purchasers specified places which can be other than the place of delivery of stores.
- (10) In case of an item has no specifications, drawing or approved sample then a board of officers appointed for the purpose will decide its acceptable standards.
- (11) Make / model / brand and country of origin of stores must be mentioned where applicable.
- (12) Manufacturer certificate of branded items must be provided.
- (13) Prices / rates will be quoted on delivery basis at locations all over Pakistan.
- (14) Prices / rates will be inclusive of all applicable taxes / duties.
- (15) Prices / rates quoted must be as per accounting unit.
- (16) More than one manufacturer / model may also be quoted giving separate price of each manufacturer / model.
- (17) Prices / rates will be quoted in Pakistani currency.
- (18) Part delivery / part payment will not be accepted / made.
- (19) Payment will be made after acceptance of ordered stores.
- (20) If stores are not delivered within delivery period, penalty will be imposed.
- (21) Items should be packed properly at the time of delivery as per standard packing regime.
- (22) Participation by authorized representatives of concerned firms is mandatory, absence may entail in rejection of bids. In case representative cannot attend the opening proceedings of tender, prior written intimation is mandatory for consideration to accept the bids.
- (23) Technical detail may be sought out by firms. Maximum technical details and technical data sheets provided will assist in evaluation of technical bids
- (24) Brand/ OEM mentioned in tender are for reference and any equivalent item having exactly same technical specifications and quality will be accepted.

g. **Commercial Offer.** This offer must include the item wise rate and total amount of stores to be offered. This offer will only be open after acceptance of technical offer.

- (1) **Opening date / time of commercial offer shall be communicated to all participants, whose technical offers have been accepted / qualified on the completion of technical evaluation.**
- (2) As far as possible Price(s) / Rate(s) must be quoted against each item, where prices / rates are not being quoted this should be reflected by words " NOT QUOTED "
- (3) List of store(s) (hard copy) will be submitted duly typed, (not hand written) signed and duly stamped on each paper or else offer will be rejected.
- (4) Quoted rates are only valid on firm's letter head.
- (5) No change should be made in soft copy of tender inquiry provided (list of stores and bidders should fill prices) / rates in front of the items without deleting / amending any column / row and without disturbing the serial numbers.

3. **Additional Documents Requirement.** Firm shall also submit following documents along with technical offer to participate in tender.

- a. Photocopy of registration with Govt agencies / certificate of clearance with services headquarter.
- b. Attested copy of registration certificate issued by Sales Tax Department, copy of NTN certificate.
- c. Attested photocopy of CNIC of MD.
- d. Certificate that firm is neither defaulter nor blacklisted by any Govt Org directly or indirectly.
- e. Undertaking for adequate financial capability to the value of tender.
- f. Attested bank statement for last one year (for firms not yet register with CASD).
- g. **Each bid should accompany 5% of the bid amount of items as earnest money (COMPULSORY)** in the shape of PAY ORDER / BANK DRAFT in the name of commandant CASD. Tender without earnest money will not be entertained.

- h. Detail of works experience with Govt / Semi Govt Org if any (desirable documents but not mandatory).
- i. **Tender fee amounting to Rs. 3,000/- per tender..**

4. **Purchasers Right.** Purchasers do not pledge to accept the lowest or any tender and reserves the right of accepting the whole or any part of the offer made. Firm will be given purchase orders after completion of above formalities. **LD charges will be imposed on weekly basis after expiry of delivery period.**

5. **Date and time of receipt of tender.** Tender must reach this depot / dropped in tender box placed at main gate CASD (EME) Rawalpindi by time and date as specified in para a above. This office will not accept any excuse of delay occurring in post. Tender received after appointed / fixed time will not be entertained.

6. **Additional details required for each item separately**

- a. Rate including taxes / duties.
- b. Delivery period of each item.
- c. Offer validity till **30 June 2026**.
- d. Performance guarantee.
- e. Clarify shipping plan (By Air / Sea).
- f. Specify warranty period.

For further details contact.

4.	MS24524-23	SWITCH,TOGGLE	10	NOS	4 pole double through toggle switch	item demanded for mfr of test bench	
5.	140-600	SINGLE POLE SWITCH	120	NOS	Single pole toggle switch	item demanded for mfr of test bench	
6.	5355-01-336-5785	KNOB	10	NOS	15x16.5 mm rotary encoder module	item demanded for mfr of test bench	

7.	V4/PVD/106-08	POTENTIOMETER	20	NOS	0-10 kilo ohms variable potentiometer	item demanded for mfr of test bench	
8.	6114457-003	LIGHT, INDICATION	20	NOS	LED-based light (commonly 5mm or 3mm) used to visually indicate status or signal presence, typically operating at 3V or 5V.	item demanded for mfr of test bench	
9.	Z29/PZZC/1676/A	VGA CONNECTOR	20	NOS	15-pin D-sub connector used for video signal transmission, typically supporting resolutions up to 1920x1080 at 60Hz.	item demanded for mfr of test bench	
10.	MONITOR 15 NON BRANDED-vg a-041	VGA Cable	10	NOS	VGA cable with heat-resistant insulation, designed to withstand temperatures up to 80°C-90°C for durable, high-performance signal transmission in harsh environments	item demanded for mfr of test bench	
11.	0454953-000	SOLDERING WIRE	10	GM	0.8mm diameter, lead-free solder wire composed of a tin-copper alloy, designed for high-quality, environmentally friendly soldering with a melting point around 227°C.	item demanded for mfr of test bench	

12.	AVN-NIV-T-10 6	TERMINAL LUGS	500	NOS	Metal connectors with a hole for crimping or bolting onto wires, typically made of copper or aluminum, used to securely join electrical conductors in various sizes (e.g., 6mm <sup>2</sup> to 50mm <sup>2</sup> ).	item demanded for mfr of test bench	
13.	87VE-016-AL	METALLIC SHEET 4 X 8 FEET, 16 GUAGE	10	NOS	1.5mm thick steel sheet, commonly used for fabrication, construction, and general metalworking, offering a balance of strength and formability.	item demanded for mfr of test bench	
14.	Z42/5935-ZO- 213-2438	BNC Connector (Female)	60	NOS	A 50-ohm or 75-ohm coaxial connector with a bayonet-style coupling mechanism, typically used for RF signal transmission, supporting frequencies up to 4 GHz.	item demanded for mfr of test bench	
15.	AVN-NIV-B-12 5	BOX HANDLE 5"	20	NOS	Specifically to cover the back of test bench	item demanded for mfr of test bench	
16.	38.000.90	BAND FOR WRIST JOINT (ESD EQUIPMENT)	10	NOS	Electrostatic discharge (ESD) wrist strap with a conductive band, designed to prevent static buildup, typically featuring a	item demanded for mfr of test bench	

					resistance of 1MΩ and a grounding cord for safe discharge of static electricity.		
17.	AVN-503718	NUT BOLT WITH WASHER 8M X 1MM X 50MM (LN KEY TYPE)	100	NOS	A screw with an L-shaped head designed for specialized applications, offering a unique grip or fastening feature for secure, angled installations	item demanded for mfr of test bench	
18.	N1/5930-ZO-1 01-5810	PUSH BUTTTON	40	NOS	A momentary switch that is activated by pressing, typically with a 5mm-12mm diameter and available in various voltages (e.g., 12V, 24V), used for controlling circuits or devices.	item demanded for mfr of test bench	
19.	418-10864-000	SELECTOR SWITCH	30	NOS	A rotary or toggle switch with multiple positions, used to select different operating modes or settings, typically rated for 5A at 250V AC.	item demanded for mfr of test bench	
20.	AVN-NIV-T-17 3	CABLE TIE 4"	20	PKT	4-inch long nylon tie, typically used for securing cables or wires, with a tensile strength of around 18-22 lbs (8-10 kg)	item demanded for mfr of test bench	

21.	GP-GENSTO-15399	INSULATING VARNISH ELEC LTR CAN	10	NOS	A protective, transparent coating applied to electronic circuits to guard against moisture, dust, chemicals, and temperature extremes, typically providing a thickness of 25-75 microns.	item demanded for mfr of test bench	
22.	6124142-021	SHRINK TUBE	20	FT	A flexible, heat-shrinkable tubing, typically made of polyolefin, that shrinks to about 50% of its original diameter when heated, used for insulation and protection of wires or connectors.	item demanded for mfr of test bench	
23.	7690-281-8620	LABEL	20	NOS	Printable, shrinkable labels made from materials like polyolefin, designed to fit around wires, cables, or components for clear identification, typically shrinking to fit with heat application.	item demanded for mfr of test bench	
24.	RILG-408-8	SLEEVING, TEXTILE, EL	20	MTR	A protective sleeve used in cable and wire installations to prevent abrasion and damage, often made of flexible material like nylon or PVC, designed to fit over cables during pulling or installation.	item demanded for mfr of test bench	

25.	GP-SIG-07473	MICROCONTROLLER	10	NOS	A microcontroller board based on the ATmega328P, featuring 14 digital input/output pins, 6 analog inputs, a 16 MHz quartz crystal, and USB connectivity, commonly used for prototyping and embedded systems projects.	item demanded for mfr of test bench	
26.	6625ZW21699 05	VOLT-AMPEREMETER, DIGITAL, DUAL MODE, OEM REF NO SA3685-97, JAMMER, MIL JAM 350, SAMA, TURKIYE	10	NOS	A current measurement module used to detect and display electrical current (usually up to 5A or 10A), typically with an analog or digital output for interfacing with microcontrollers or displays.	item demanded for Arduino MCU	
27.	GIP-SIG-0129 1	JUMPER WIRE	10	NOS	Flexible, insulated wires with pre-crimped connectors on both ends, used for making temporary connections in breadboard or circuit prototyping, available in various lengths (e.g., 20cm, 30cm).	for testing of avionic assemblies	
28.	TPN/GWS/BS WS/FEIT-0014	PRINTER CABLE	10	NOS	A 6-pin male-to-male jumper cable, typically used for connecting Arduino boards to external modules or sensors, often in 20cm or 30cm lengths.	for testing of avionic assemblies	

29.	Z42/PZ/37068 4	TRANSISTOR NPN	5	NOS	An NPN transistor capable of handling up to 80V and 500mA of current, with a frequency response up to 50 MHz, typically used for amplification and switching applications.	item required for repair of AV-6 PUMAL	
30.	BGXP1203A	FUSE 3 AMP	5	NOS	A 3A-rated fuse with a slow-blow characteristic, designed to withstand brief overcurrent surges without blowing, rated for 250V AC, and commonly used in power supplies and electronic devices.	item required for repairing of DME PUMA SM	
31.	Z31/PZZE/RJE 5192163-1	CAPACITOR 100UF	5	NOS	A through-hole electrolytic capacitor with a capacitance of 100µF, a voltage rating of 50V, and typically used for filtering, decoupling, or energy storage in power supply circuits.	item required for repairing of Avionics assemblies (generic component)	
32.	Q25-0080-001	XSTR MOSFET RF PWR N-CH 45W 1G	5	NOS	A high-voltage, 500V-rated N-channel MOSFET with a drain current of 20A, designed for power switching applications, featuring low R_DS(on) for efficient operation in high-power circuits.	item required for repairing of Avionics assemblies (generic component)	

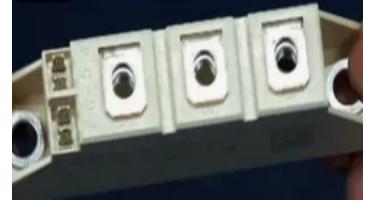

33.	1N4005	DIODE	5	NOS	A 400V, 1A through-hole (THT) rectifier diode in a DO-204AC package, typically used for power supply rectification and general-purpose high-voltage applications.	item required for repairing of Avionics assemblies (generic component)	
34.	BGXP1205A	FUSE 5 AMP	5	NOS	A 5A-rated slow blow fuse with a 250V AC voltage rating, designed to withstand short current surges before blowing, commonly used in power supplies and electronic equipment to protect against prolonged overcurrent.	item required for repairing of Avionics assemblies (generic component)	
35.	FCS042C	CAPACITOR 220NF 50V	5	NOS	A through-hole electrolytic capacitor with a capacitance of 220 $\mu$ F and a voltage rating of 50V, typically used for power filtering, decoupling, or energy storage in circuits requiring moderate capacitance.	item required for repairing of Avionics assemblies (generic component)	
36.	ZC-22925	RESISTOR 3.3 K 4W	5	NOS	A through-hole (THT) fixed resistor with a resistance of 3.3 k $\Omega$ , commonly used in signal conditioning, voltage division, and current limiting applications.	item required for repairing of Avionics assemblies (generic component)	

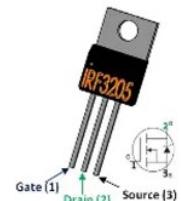

37.	5961ZO35301 63	TRANSISTOR,TRI ODE,3DG4C	5	NOS	A high-power NPN transistor, rated for 15A and 30V, commonly used for audio amplification, power switching, and general-purpose high-current applications, with low saturation voltage and fast switching capabilities.	item required for repairing of FLEX battery charger	
38.	5962-01-055-2 770	INTIGRATED CIRCUIT	5	NOS	A 16-pin dual 4-bit multiplexer integrated circuit, typically used for data routing and switching applications in digital circuits, with a wide supply voltage range of 3V to 18V.	item required for repairing of Avionics assemblies (generic component)	
39.	NIV-GS-SR1 100 OHM	Standard Resistor 100 OHM esi	5	NOS	A 100-ohm, 3.3mm diameter, 9mm long through-hole resistor, typically used in signal processing and current-limiting applications, with standard tolerance and power rating.	item required for repairing of Avionics assemblies (generic component)	
40.	PYB-0155-A-1 000003	RECTIFIER (10AMPS)	5	NOS	A high-speed, ultra-fast recovery 16V, 20A rectifier diode in a DO-203AA package, commonly used in power rectification and switching applications with low forward voltage drop and fast switching times.	item required for repairing of FLEX battery charger	

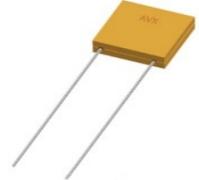

41.	Z31/5910-ZO-213-0345	CAPACITOR FIXED POLYCARBONATE 022UF 250 VDC	10	NOS	A ceramic or film capacitor with a capacitance of 220nF (nanofarads), typically used for decoupling, filtering, and noise suppression in low to medium voltage applications.	item required for repairing of Avionics assemblies (generic component)	
42.	7020ZO353054	ASSEMBLY, POWER MODULE	1	NOS	A high-efficiency, isolated DC-DC converter module with a 48V input and 28V output, capable of delivering up to 250W of power, designed for power systems requiring compact, reliable conversion with high power density.	item required for repairing of Avionics assemblies (generic component)	
43.	5920ZO3521434	FUSE 5A	10	NOS	A fuse with a 12A rating, typically used for overcurrent protection in power circuits, with a voltage rating of 240V AC, designed to prevent damage to electrical components from excessive current.	item required for repairing of torque meter processing unit PUMA SM	
44.	40108	DIOD RECRIFIRE	10	NOS	A general-purpose 10uf 400v ceramic or film capacitor, typically used in filtering, coupling, or decoupling applications. The exact capacitance and voltage ratings may vary, but it's commonly used in low to medium-voltage circuits.	item required for repairing of Avionics assemblies (generic component)	

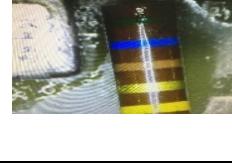

45.	2N3055	TRANSISTOR	10	NOS	<p>A popular NPN power transistor, rated for 15A and 60V, commonly used in high-power amplification and power regulation circuits, with a low saturation voltage and high current gain.</p>	<p>item required for repairing of Avionics assemblies (generic component)</p>	<p>2N3055 NPN Power Transistor</p> 
46.	2N5682	NPN SILICON TRANSISTOR AMPLIFIER	10	NOS	<p>A high-power NPN transistor, rated for 15A and 80V, commonly used in audio amplification and power switching applications, with low saturation voltage and high gain, designed for handling high currents in power supplies.</p>	<p>item required for repairing of Avionics assemblies (generic component)</p>	
47.	3C81	TRANSFORMER, MAGNETIC	10	NOS	<p>A high-permeability ferrite core material typically used in transformers, inductors, and other magnetic components, designed to operate efficiently in high-frequency power applications, offering low core loss and high saturation flux density.</p>	<p>item required for repairing of power supply B-250</p>	

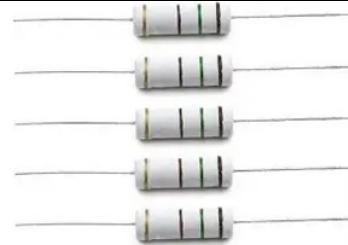

48.	197500-1012	MOTOR,STEPPING	2	NOS	A high-precision stepper motor designed for accurate positioning and movement control, typically used in automation, robotics, and CNC systems, with high torque output and fine resolution for precise motion applications.	item required for repairing of HIS ECEL/FENNEC	
49.	C33-5026	VARIABLE RESISTOR	20	NOS	A 10kΩ (103) potentiometer with a 10-turn mechanism, typically used for precise adjustments in signal control or calibration applications, offering high durability and reliability in both industrial and laboratory settings.	item required for repairing of SIU card PUMA SM	
50.	TPN/RADAR/T-514/R/SYS/01 17	RECTIFIER DIODE 2 DL 005/0.04	20	NOS	low forward voltage drop diode, typically designed for low-voltage, high-efficiency applications, with a forward voltage of approximately 0.5V, often used in rectification, protection, or low-power circuits.	item required for repairing of Avionics assemblies (generic component)	
51.	360-00001-00	LITHIUM CELL 3V COIN	10	NOS	A 3V primary lithium cell battery rechargeable	item required for repairing of RADS KIT	

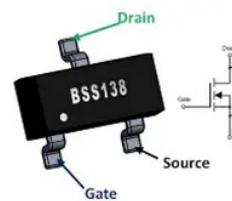

52.	AVN-NIV-B-17 3	BTY CELL 1.2V RE-CHARGABLE	20	NOS	A rechargeable lithium-based 1.2V battery commonly used for backup power in memory retention or low-power devices	item required for repairing of RADS KIT	
53.	Z42/5961-ZO- 213-9762	TRANISTOR IRFR9020	20	NOS	A high-power N-channel MOSFET with a 38V drain-to-source voltage and 38A drain current rating, designed for efficient power switching applications, with a low R_DS(on) for minimal conduction losses in power conversion and motor control circuits	item required for repairing of FLEX battery charger	
54.	NIV-TPN-1560 -ZO-215-5815- 1000010	SCR DRIVE CONTROLL UNIT (09B)	10	NOS	A 3-phase silicon-controlled rectifier (SCR) rated for 900V and 90A, commonly used in high-power AC switching applications like motor control, rectifiers, and phase control in industrial circuits.	item required for repairing of FLEX battery charger	
55.	007-00886-000 0	XSTR MOSEFET IRF540	20	NOS	A 400V N-channel MOSFET with a 10A current rating, commonly used in high-voltage power switching applications, offering low R_DS(on) for efficient operation in power supplies, motor control, and inverters.	item required for repairing of FLEX battery charger	

56.	REP40N10	IRF-540	20	NOS	<p>A 55V N-channel MOSFET with a 169A current rating, designed for high-speed switching and low conduction losses, typically used in power conversion, automotive, and DC-DC applications with a low R_DS(on) for efficient performance.</p>	item required for repairing of FLEX battery charger	
57.	Z1/SS/60-007	FET IRF 3205	20	NOS	<p>A 55V N-channel MOSFET rated for 120A, commonly used in high-power applications like motor control, power supplies, and DC-DC converters, known for its low R_DS(on) and high efficiency.</p>	item required for repairing of FLEX battery charger	
58.	MS3450W20-8 PZ	CONNECTOR RECEPTACLES	1	EA	50 pin main connector for NVG card AH-1F	item required for repairing of NVG card AH-1F	
59.	PT-H7	SOLDERING TIP	1	NOS	<p>A 2.4mm chisel-shaped soldering tip, designed for general-purpose soldering with high heat transfer efficiency, typically used for medium to large component soldering in electronics and PCB assembly.</p>	Item required for soldering iron	

60.	Y5TZ-289	Soldering Tip	1	NOS	A precision soldering tip with a 0.1mm (0.003 inch) fine point, designed for micro soldering and detailed work, especially in fine-pitch component placement or PCB repair. ERSADUR is a durable, long-lasting material for extended tip life.	Item required for soldering iron	
61.	Q 317 206 039	CAPACITOR, (1) FIXED , CERAMIC DIELECTRIC 470PF 5% 100V-	10	NOS	high-reliability ceramic capacitor, typically rated for 100V with a capacitance of 100nF (104K), designed for military or aerospace applications, meeting MIL-PRF-39014 standards.	item required for repairing of NVG card AH-1F	
62.	5.96101E+12	TRANISTOR , BJT, NPN, 60V V (BR)CEO,20A	11	NOS	A high-power NPN transistor, rated for 80V and 8A, commonly used in switching and amplification circuits requiring high current handling and low saturation voltage.	item required for repairing of Avionics assemblies (generic component)	
63.	5960-ZO-213-0218	SILICONE DIODE 1N5401	11	NOS	A general-purpose diode, typically used for rectification, with a reverse voltage rating of 50V and a forward current rating of 300mA, commonly found in low-power signal circuits.	item required for repairing of Avionics assemblies (generic component)	

64.	99138984	RESISTOR 10K	15	NOS	A 10k $\Omega$ resistor, typically used in voltage divider circuits, pull-up/pull-down applications, and signal conditioning for medium-impedance applications.	item required for repairing of NVG card AH-1F	
65.	C31-5572-005	RESISTOR 1K	15	NOS	A 1k $\Omega$ resistor, commonly used in current limiting, voltage division, and filtering applications in various analog and digital circuits.	item required for repairing of NVG card AH-1F	
66.	S11004-3430	RESISTOR 348? (R6,R7,R10,R11)	15	NOS	A 3k $\Omega$ resistor, used in similar applications as other resistors (e.g., signal conditioning, biasing), typically for moderate resistance values in analog circuits.	item required for repairing of NVG card AH-1F	
67.	S11394-750	RESISTOR 75? (R1,R3)	15	NOS	A 700 $\Omega$ resistor, generally used for specific current limiting or voltage regulation applications, particularly in higher-current circuits.	item required for repairing of NVG card AH-1F	
68.	ZC-27304	RESISTOR 600 OHM 2W	15	NOS	A 600 $\Omega$ resistor, often used in audio signal processing, impedance matching, or as a load resistor in various signal transmission circuits.	item required for repairing of NVG card AH-1F	

69.	Q 317 025 159	RESISTOR (1), FIXED, WIRE WOUND 6,8K OHM 5% 6W	15	NOS	An 800Ω resistor, typically used in circuits requiring precise control of current flow, such as in voltage dividers or filtering applications.	item required for repairing of NVG card AH-1F	
70.	NVG-17-R1.4K	RESISTOR 1.4KOHM	50	NOS	A through-hole resistor rated for 1/4 watt, commonly used in general-purpose electronics circuits.	item required for repairing of Avionics assemblies (generic component)	
71.	Z31/5910-ZO-215-0741	CAPACITOR 1000PF 25V	50	NOS	A 0.1µF capacitor with a 50V rating in 0805 or 1206 SMD package, used for filtering or decoupling applications.	item required for repairing of Avionics assemblies (generic component)	
72.	Z31/PZZF/Philips/PCS2601239	CAPACITOR 10 UF 20% 25	50	NOS	A 10µF electrolytic capacitor with a 25V rating, commonly used in power supply filtering and decoupling.	item required for repairing of Avionics assemblies (generic component)	
73.	45108109	VARIABLE CAPACITOR (RUSS DG-20-7H)	30	NOS	Package sizes for SMD resistors and capacitors, available in values ranging from picofarads (pF) to microfarads (µF), and typically used in various applications based on size and power requirements.	item required for repairing of Avionics assemblies (generic component)	

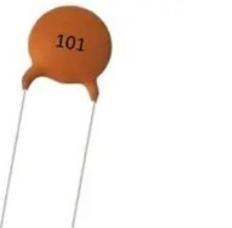

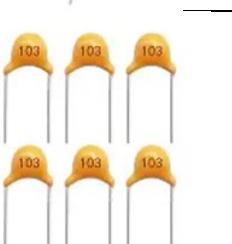

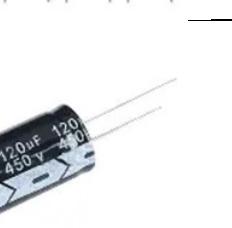

74.	1N4148	DIODE-D4,D5,D6, D7,D8,D9,D10,D12 ,D13,D14,D15,D16, D17,D18,D19	20	NOS	A small-signal fast switching diode with a 100V reverse voltage rating and 300mA forward current capacity, used in signal processing and switching applications.	item required for repairing of Avionics assemblies (generic component)	
75.	1N4007	DIODE-D1,D2,D3, D20	20	NOS	A general-purpose rectifier diode rated for 1000V and 1A, commonly used in power supply circuits for rectification.	item required for repairing of Avionics assemblies (generic component)	
76.	MRB240SFT3 G	Shortkey Limiter Diode	30	NOS	A Schottky diode with a 40V reverse voltage and 1A forward current, offering low forward voltage drop, typically used in power conversion and DC-DC applications.	item required for repairing of Avionics assemblies (generic component)	
77.	2N5335	TRANISTOR	20	NOS	A general-purpose NPN transistor, typically used in low-power switching and amplification circuits, with 45V (BC547) and 40V (2N2222) voltage ratings.	item required for repairing of Avionics assemblies (generic component)	
78.	TPN/FCE/Tow G/Oscilloscope -0054	MOSFET	20	NOS	A small N-channel MOSFET in a SOT-23 package, used in low-power switching, logic level applications, and protection circuits, with a 50V rating and 200mA current capacity.	item required for repairing of Avionics assemblies (generic component)	

79.	5962-74-215-991	MOSFET N-CH 75V, 500A, OEM PART NO.WBJ-649-1, NRTC, APPLICABILITY:JAMMER WB-300	20	NOS	N-channel MOSFETs designed for high-efficiency power switching, with low R_DS(on) and 55V ratings, typically used in power supplies and motor control.	item required for repairing of Avionics assemblies (generic component)	 IRFZ44N
80.	LM7805	MICROCIRCUIT, LINEAR	20	NOS	Linear voltage regulators that provide stable 5V and 12V outputs, commonly used to power logic circuits and analog devices from higher voltage sources.	item required for repairing of Avionics assemblies (generic component)	
81.	LM358	Integrated Circuit	20	NOS	74HC00: Quad 2-input NAND gate (logic IC). 74HC04: Hex inverting buffer (logic IC). LM358: Dual operational amplifier (op-amp), commonly used in signal processing and analog control circuits.	item required for repairing of Avionics assemblies (generic component)	
82.	LM101AH	MICROCIRCUIT, LINEAR	11	NOS	A precision, low-noise operational amplifier, often used in high-accuracy signal processing applications.	item required for repairing of transceiver AHV-6 puma L	 LM101AH

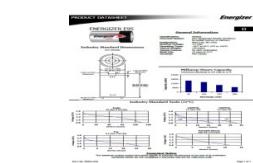

83.	2N2219A	TRANSISTOR	10	NOS	A high-power NPN transistor, typically used in amplification and switching applications with 40V and 1A ratings.	item required for repairing of transceiver AHV-6 puma L	
84.	SFC2709	MICROCIRCUIT, LINEAR	10	NOS	A small-signal NPN transistor used in low-power switching and amplification circuits.	item required for repairing of transceiver AHV-6 puma L	
85.	1N5819	SEMICONDUCTOR DEVICE, DIODE	10	NOS	A Schottky diode with a 40V reverse voltage and 1A forward current, commonly used in power supply and low-voltage applications.	item required for repairing of Avionics assemblies (generic component)	
86.	1N5408	SEMICONDUCTOR DEVICE, DIODE	10	NOS	A 3A, 100V rectifier diode, commonly used in power supply circuits for rectification and high-current applications.	item required for repairing of Avionics assemblies (generic component)	
87.	353-6469-020	SEMICONDUCTOR DEVICE, DIODE	10	NOS	A high-power rectifier diode with a 1A forward current rating and a reverse voltage of 50V, commonly used in power supply applications for rectification, voltage clamping, and protection. It is typically found in general-purpose and low-to-medium power applications.	item required for repairing of Avionics assemblies (generic component)	

88.	IRF540N	SEMICONDUCTOR DEVICE,DIODE	10	NOS	N-channel MOSFET, rated for 100V and 33A, commonly used in power switching and control applications, known for its low R_DS(on) and high efficiency.	item required for repairing of Avionics assemblies (generic component)	
89.	LM317	TRANSISTOR	10	NOS	A popular adjustable voltage regulator, capable of providing output voltages from 1.25V to 37V, commonly used for power supply applications.	item required for repairing of Avionics assemblies (generic component)	
90.	MIL-PRF-55342	RESISTOR,CHIP,FIXED, FILM	10	NOS	A military standard specification for precision resistor of 10 k ohms value, used in high-reliability and defense applications.	item required for repairing of Avionics assemblies (generic component)	
91.	BZX 55 C5V1	DIODE	10	NOS	A Zener diode with a 5.1V breakdown voltage, used for voltage regulation and protection in low-voltage circuits.	item required for repairing of Avionics assemblies (generic component)	
92.	ATMEGA 328P	MICROCIRCUIT, DIGITAL	8	NOS	microcontroller from the AVR family, commonly used in Arduino boards, with 32KB flash memory, 1KB SRAM, and 23 I/O pins.	item demanded for mfr of test bench	

93.	R331	RESISTOR, FIXED,FILM	10	NOS	330 ohms SMD resistor	item required for repairing of Avionics assemblies (generic component)	
94.	R472	RESISTOR NETWORK,FIXED, FILM	10	NOS	4.7 kilo ohms SMD resistor	item required for repairing of Avionics assemblies (generic component)	
95.	R473	RESISTOR	10	NOS	17 kilo ohms SMD resistor.	item required for repairing of Avionics assemblies (generic component)	HE XIE CHENG 
96.	R104	RESISTOR,FIXED, COMPOSITION,	10	NOS	100 kilo ohms smd resistor .	item required for repairing of Avionics assemblies (generic component)	HE XIE CHENG 

97.	R105	RESISTOR,FIXED, FILM	10	NOS	1 mega ohms SMD resistor. item required for repairing of Avionics assemblies (generic component)	
98.	C101	CAPACITOR,FIXE D,PAPER DIELECTRIC	10	NOS	A 100 picofarad (pF) capacitor, commonly used in high-frequency circuits for filtering, decoupling, or tuning applications. item required for repairing of Avionics assemblies (generic component)	
99.	C103	CAPACITOR,FIXE D,CERAMIC DIELECTRIC	10	NOS	A 10 nanofarad (nF) capacitor, typically used for filtering, decoupling, or signal coupling in analog and digital circuits. item required for repairing of Avionics assemblies (generic component)	
100.	183-1504-420	CAPACITOR,FIXE D,ELECTROLYTIC	10	NOS	A 63µF electrolytic capacitor with a 40V rating, typically used for filtering, decoupling, and energy storage in power supply and audio applications. item required for repairing of DME PUMA SM	
101.	351-1849-010	MICROCIRCUIT,DI GITAL	12	NOS	A high-speed transceiver IC (octal buffer) with tri-state output, often used for signal conditioning, driving, and data transmission in digital circuits. It features electrostatic discharge (ESD) protection, commonly item required for repairing of DME PUMA SM	

					used in bus systems and logic interfacing.		
102.	629901-32	KNOB ASSEMBLY,COURSE,OEM REF NO 629901-32, FLIGHT INSTRUMENT, RW,PUMA,FRANCE	6	NOS	A mechanical component used for manual adjustments, typically on devices like potentiometers or volume controls, designed with a "course" adjustment for rough tuning or control.	Demande against MFD-255FF PUMA SM HEL	
103.	2N4393	TRANSISTOR	10	NOS	A high-power N-channel MOSFET transistor, typically used in high-speed switching applications. It is designed for use in power control, audio amplification, and switching power supplies, with high efficiency and low on-resistance.	item required for repairing of Avionics assemblies (generic component)
