	Title	Corrosion & Scale Inhibitor	Rev. #	00
			w.e.f	26 Dec 2018
			Page	Page 1 of 1

SPECIFICATION

Product Name: Corrosion & Scale Inhibitor

Efficiency:

- a. Corrosion scale inhibitors (preferably HEDP) offered should be effective to control corrosion and scales in open water circulation system.
- b. Possess rust removal / dispersing capability.
- c. Non heavy metal type (EPA standards are enable.). Supplier has to arrange certification in respect of their chemicals from EPA certified laboratory
- d. Effective over a PH range of 7.0 to 9.0
- e. The product should contain 30% PO₄.
- f. Dosing ppm rate (based on station blow down volume as per Annexure '3') should be quoted in single figure; in case of range highest figure will be considered for the quoted product and evaluate accordingly
- g. Capable of producing following minimum results:
 - (1) Corrosion rate carbon steel below 20 mdd.
 - (2) No scaling or fouling
 - (3) It should be good dispersant / anti scalant as well as anticorrosion simultaneously
- h. Preferably liquid type as our systems is equipped with chemicals dosing pumps
- i. Effective during wet storage of heat exchangers.
- j. Provide certificate from Certified Authority as Capable of producing the results given at (c & e) above.

Product Data:

Following product data is required to be submitted for the offered corrosion and scale inhibitor:-

- Shelf storage life and storage temperature.
- Freezing point.
- Flash point.
- Product main ingredient should be HEDP or equivalent organic phosphate.
- List of additives such as acrylates, azoles etc. and their percentage.
- Density

Terms & Conditions:

- Raw material of offered Chemical should be imported and Country of origin should also be mentioned.
- Bidder will attach their authorization certificate.
- Bidder shall provide list of main additives for chemicals with compatible proportion of their active ingredients.
- Bidder will ensure above 30 % of active organic phosphate in their quoted chemicals and provide sample of 2 Kg of offered chemical along the bid for testing / verification of required concentration.
- Chemical will be analyzed at random from the lot at our end. If analysis results will not be according to our required specification, then the whole lot would be rejected.
- Weekly dosage recommendations on each station should be mentioned separately.
- Bidders to furnish procedure of testing routine tests along with kits. The successful bidder will have to provide phosphonate testing kits enough for 2000 tests and 40 Nos. corrosion coupons along with chemical delivery and shall have to confirm provision of analysis and reporting facility for removed coupons.
- Bidder should ensure quality of packing material i.e., plastic canes would not leak during storage period of these chemicals (upto 2 years).
- Bidder to provide test reports of the product regarding active ingredient from certified laboratory.
- Filled data sheets and MSDS for the quoted chemical for our six different compressor stations should be attached with the offer. This data sheet is enclosed as Annexure 4.
- System data is attached as Annexure 1, 2 & 3.

SPECIFICATION

Product Name: Microbiocide

Efficiency:

- a. Microbiocide should be effective to control bacterial, algal and fungus growth.
- b. Microbiocide should be effective over a pH range 7.0 to 9.0
- c. Ability to remove established biofilm and to inhibit regrowth.
- d. Broad spectrum of activity
- e. Chemically compatible with most common scale and corrosion inhibitors
- f. Ability to reduce populations of sessile microorganisms known to cause corrosion
- g. Effective over a broad temperature range
- h. Compatible with chlorine
- i. Free of heavy metals
- j. Concentration of active ingredient (isothiazolinone) should not be less than 5%
- k. Capable of producing following minimum results.
 - 1) Bacteria growth to be below 10000 organism / ml.
 - 2) No yeast or mould growth

Product Data:

Following product data is required to be submitted for the offered microbiocide.

- Shelf storage temperature.
- Freezing point.
- Flash point.
- Main ingredients which are effective against bacteria, algae and fungus.
- Percentage Concentration of main ingredients.
- Density.

Terms & Conditions:

- Raw material of offered Chemical should be imported and Country of origin should also be mentioned.
