## Price Schedule Forms

*[Bidder shall fill in these Price Schedule Forms in accordance with instructions indicated. In information systems procurement, Contract Price (and payment schedule) should be linked as much as possible to achievement of operational capabilities, not just to physical delivery of technology]*

Preamble:

PTA should highlight any special requirements of Information System and Contract in a Preamble to Price Schedules. following is an example of one such preamble;

1. Price Schedules are divided into separate Schedules as follows:
  - i. Supply and Installation Cost Sub-Table(s)
2. Schedules do not generally give a full description of information technologies to be supplied, installed, and operationally accepted, or Services to be performed under each item. However, it is assumed that Bidders shall have read Technical Requirements and other sections of these Bidding Documents to ascertain full scope of requirements associated with each item prior to filling in rates and prices. quoted rates and prices shall be deemed to cover full scope of these Technical Requirements, as well as overhead and profit.
3. If Bidders are unclear or uncertain as to scope of any item, they shall seek clarification in accordance with Instructions to Bidders in Bidding Documents prior to submitting their bid.

### Pricing

4. Prices shall be filled in indelible ink, and any alterations necessary due to errors, etc., shall be initialed by Bidder. As specified in Bid Data Sheet, prices shall be fixed and firm for duration of Contract.
5. Bid prices shall be quoted in manner indicated and in currencies specified in ITB Clauses 15. Prices must correspond to items of scope and quality defined in Technical Requirements or elsewhere in these Bidding Documents.
6. Bidder must exercise great care in preparing its calculations, since there is no opportunity to correct errors once deadline for submission of bids has passed. A single error in specifying a unit price can therefore change a Bidder's overall total bid price substantially, make bid noncompetitive, or subject Bidder to possible loss. PTA will correct any arithmetic error.
7. Payments will be made to Supplier in currency or currencies indicated under each respective item. As specified in ITB Clause 15.1 (ITB Clause 28.1 in two-stage SBD), no more than three foreign currencies may be used. price of an item should be unique regardless of installation site.
