## **4- Foundation of Stand**

Foundation should be of 2-feet depth made with Cement, sand and crush.

## **5- Connecting Length and Size of Cable**

30-meter 4-core 25mm<sup>2</sup> Aluminum cable

## **OTHER TERMS AND CONDITIONS: -**

- i) The tenderer is bound to carry out any or all items of work necessary for the completion of the job even though such items are not included in the quantities and rates.
- ii) The Contractor shall make necessary arrangement for watch and ward.
- iii) No compensation shall be admissible for any loss suffered by the Contractor during the execution of the work. It shall be the Contractor's sole responsibility to protect PMDC's staff, his employees and property against accidents from any cause and he shall indemnify PMDC against any claims for damage for injury to person or property, resulting from any such accidents with necessary Insurance cover.
- iv) Any damages caused to the building / premises during the execution of the work shall be made good by the Contractor at his risk and cost and if necessary, through suitable Insurance cover.
- v) The work is to be undertaken only during working days and during the office timings. The work cannot be undertaken on Friday and any declared holidays except with the written approval of the PMDC.

- vi) The contractor has to make his own arrangement of stay for his employees outside the PMDC premises.
- vii) The Contractor shall use necessary safety equipment and maintain all safety measures during the execution of works and ensure compliance of Safety Code as per Rules and Regulations in force.
- viii) The Contractor shall engage necessary qualified and experienced supervisory staff at his cost during the execution of the work for attending to day to day affairs.
- ix) The Contractor should have necessary Contract License and comply with the Labour Laws as applicable.
- x) Documents for authorized dealer of manufacturing company must be attached/provided.
- xi) Notwithstanding anything stated above, PMDC reserves the right to assess the bidder's capability and capacity to perform the contract, should the circumstances warrant such assessment in the overall interest of PMDC.
- xii) The decision of PMDC in awarding the work shall be final and cannot be subjected to arbitration.
- xiii) PMDC reserves the right to accept / negotiate / reject any Quotation either in whole or in part without assigning any reasons therefore whatsoever and without entering into any further correspondence and hence, PMDC shall be under no obligation to accept the lowest or any other Quotations received in response to this Quotation. The decision of PMDC in this regard shall be final and indisputable.
- xiv) The rates quoted should be firm, workable, reasonable and should include all kinds of Taxes, Duties, Work Contract Tax, Octroi, GST etc. as applicable, overheads and profit etc. No separate charges for carriage or labour would be made. There is no question of extra payment above the quoted rate under any circumstance. In case of any variation in quantity or value, the same will not be made as a subject matter for dispute by the bidder.
- xv) PMDC also reserves the right of supersession of any of the conditions stipulated in the Quotation Document.
- xvi) The contractor shall require shifting some of the furniture, electrical items, etc., to some other places within the office premises during the time of work and may also be required to place them in the

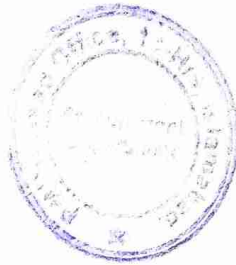

appropriate place after completing the work. No extra payment will be made for those works.

- xvii) There will be other works being carried out by various contractors in the said office premises. Hence Care should be taken not to damage any other works and also to coordinate with the other work contractors.
- xviii) Testing of Materials: The contractors are required to submit samples of various materials, items, fittings, etc for the approval of the PMDC. The materials of brand names, if any, given in the contract shall only be selected.
- xix) Transportation charges, loading charges and unloading charges will be on the contractor side and including all taxes.
- xx) Defect Liability Period: The defects liability period shall be of One Year and shall commence from the date of virtual completion. Any defect that may appear within the defects liability period, shall be rectified by the contractor without any extra cost to the employer. In case of failure to do so within 10-days from such notice, the employer may get such rectification works carried out through any other firm and expenditure incurred shall be recovered from any money due to the contractor at the cost and risk of the contractor. Only, after all the defects pointed out during the Defects liability period have been rectified by the contractor to the satisfaction, thereafter, the Security Deposit/RMD will be refunded to the contractor.
- xxi) Final bill: The final bill has to be submitted by the contractors as early as possible after the completion of the work.
- xxii) Co-ordination and Monitoring: The contractor's site supervisor/ engineer will be coordinating and monitoring the project and report the progress to PMDC on weekly basis.
- xxiii) In case the proposed work is held up for any site conditions not attributable to the contractor or for any decisions/ instructions/ want of details from PMDC or for any of the untoward situation, the contractor shall be allowed reasonable extension of time by the PMDC but any additional/ extra claim for payment to idle labour/ tools/ establishment/ plant etc, during this period shall not be the liability of the PMDC. The quoted rates should include for all such contingencies.

II. Whatever the reasons be, no claim for idle labour, additional establishment, cost of labour charges of tools and plants would be entertained under any circumstances.

- xix) Transportation charges, loading charges and unloading charges will be on the contractor side and including all taxes.
- xx) Defect Liability Period: The defects liability period shall be of One Year and shall commence from the date of virtual completion. Any defect that may appear within the defects liability period, shall be rectified by the contractor without any extra cost to the employer. In case of failure to do so within 10-days from such notice, the employer may get such rectification works carried out through any other firm and expenditure incurred shall be recovered from any money due to the contractor at the cost and risk of the contractor. Only, after all the defects pointed out during the Defects liability period have been rectified by the contractor to the satisfaction, thereafter, the Security Deposit/RMD will be refunded to the contractor.
- xxi) Final bill: The final bill has to be submitted by the contractors as early as possible after the completion of the work.
- xxii) Co-ordination and Monitoring: The contractor's site supervisor/ engineer will be coordinating and monitoring the project and report the progress to PMDC on weekly basis.
- xxiii) In case the proposed work is held up for any site conditions not attributable to the contractor or for any decisions/ instructions/ want of details from PMDC or for any of the untoward situation, the contractor shall be allowed reasonable extension of time by the PMDC but any additional/ extra claim for payment to idle labour/ tools/ establishment/ plant etc, during this period shall not be the liability of the PMDC. The quoted rates should include for all such contingencies.

II. Whatever the reasons be, no claim for idle labour, additional establishment, cost of labour charges of tools and plants would be entertained under any circumstances.

**2. SUPPLY, INSTALLATION AND COMMISSIONING OF RELAYS, TRIPPING COILS FOR 11-KV H.T PANELS AT POWER HOUSE (05 NOS EACH): -**

**Scope of Work:-**

**Technical Specifications for Digital Relay: -**

- 1- Standard IEC 60255, IEC 61850
- 2- Input Current (CT Secondary) 1 A/5A Selectable
- 3- Input Voltage (PT Secondary) 110 ac
- 4- Frequency 50 Hz
- 5- Protection Element 3-Phase Overcurrent (51/50), Earth fault (51N/50N)
- 6- Characteristic Curves IEC Normal Inverse, Very Inverse, Extremely Inverse, Definite Time
- 7- Time Multiplier Setting (TMS) 0.05-1.0
- 8- Current Setting Rate (PSM)  $0.5 \times I_n$  to  $20 \times I_n$
- 9- Instantaneous Element 50/50N Selectable
- 10- Accuracy Class Class 1
- 11- Trip Contacts 3 to 6 programmable outputs
- 12- Auxiliary Supply As per Panel

**Technical Specifications for Digital Relay: -**

- 1- Rated Voltage (DC) 110 Volts
- 2- Operating Current 0.5 A – 2.5 A
- 3- Power Consumption 20-50 watts
- 4- Operating Time 20-50-msec
- 5- Coil Type Shunt Trip Coil
- 6- Duty Cycle Intermittent
- 7- Insulation Level 2KV RMS for 1mint
- 8- Mounting Location Inside Circuit Breaker Mechanism

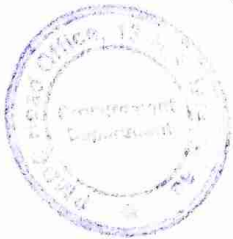

- i) Replacement of existing relays with digital relays (05 Nos)
- ii) Replacement of tripping coils (05 Nos)
- iii) Bridge rectifiers as per requirements (05 Nos)
- iv) Replacement of Push buttons ON & OFF (2 x 05 Nos)
- v) Wiring cable as per requirement in Panels
- vi) Transportation charges, loading, unloading charges, on site labor charges, meal and accommodation will be on the contractor.

**OTHER TERMS AND CONDITIONS: -**

- i) The tenderer is bound to carry out any or all items of work necessary for the completion of the job even though such items are not included in the quantities and rates.
- ii) The Contractor shall make necessary arrangement for watch and ward.
- iii) No compensation shall be admissible for any loss suffered by the Contractor during the execution of the work. It shall be the Contractor's sole responsibility to protect PMDC's staff, his employees and property against accidents from any cause and he shall indemnify PMDC against any claims for damage for injury to person or property, resulting from any such accidents with necessary Insurance cover.
- iv) Any damages caused to the building / premises during the execution of the work shall be made good by the Contractor at his risk and cost and if necessary, through suitable Insurance cover.

**3. Supply of 15-HP SUBMERSIBLE PUMPS (02 NOS), FLAME PROOF PANELS WITH DOL STARTERS (02 NOS), 4-CORE 25-MM2 ARMORED ALUMINIUM CABLE 1000-Feet**

- i) **Power:-**  
15-hp
- ii) **Motor Type**  
Oil filled re-windable submersible induction motor
- iii) **Phase**  
Three Phase
- iv) **Voltage**  
415 Volts
- v) **Speed**  
2880 R.P.M
- vi) **Frequency**  
50-Hz
- vii) **Starting Method**  
DOL
- viii) **Insulation Class**  
Class F
- ix) **Protection Class**  
IP 68
- x) **Delivery /Discharge Size**  
Pipe Connection (4 inch)
- xi) **Body Material**  
Stainless Steel

**Flame Proof Panel Boxes with Accessories Specification Data:-**

Panel boxes should be flame proof as per IEC standards with one year warranty of items installed in the panels. Starter must be DOL operation. Starters should be compatible to run 15-hp submersible pumps. Starter must be included MC'S, Volt meters, Ampere meters, switches includes ON, OFF, Emergency, incoming supply indicators, EOR (electronic Overload Relay), Three

(03) fuses for each phase, control & Power CB's should be such that they operate automatically in case of abnormal conditions.

1000-feet 25mm<sup>2</sup> 4-Core armored aluminum cable

**OTHER TERMS AND CONDITIONS:-**

- i) The tenderer is bound to carry out any or all items of work necessary for the completion of the job even though such items are not included in the quantities and rates.
- ii) The Contractor shall make necessary arrangement for watch and ward.
- iii) No compensation shall be admissible for any loss suffered by the Contractor during the execution of the work. xx) **Defect Liability Period:** The defects liability period shall be of One Year and shall commence from the date of virtual completion. Any defect that may appear within the defects liability period, shall be rectified by the contractor without any extra cost to the employer. In case of failure to do so within 10-days from such notice, the employer may get such rectification works carried out through any other firm and expenditure incurred shall be recovered from any money due to the contractor at the cost and risk of the contractor. Only, after all the defects pointed out during the Defects liability period have been rectified by the contractor to the satisfaction, thereafter, the Security Deposit/RMD will be refunded to the contractor.

xxi) **Final bill:** The final bill has to be submitted by the contractors as early as possible after the completion of the work.

xxii) **Co-ordination and Monitoring:** The contractor's site supervisor/ engineer will be coordinating and monitoring the project and report the progress to PMDC on weekly basis.

xxiii) In case the proposed work is held up for any site conditions not attributable to the contractor or for any decisions/ instructions/ want of details from PMDC or for any of the untoward situation, the contractor shall be allowed reasonable extension of time by the PMDC but any additional/ extra claim for payment to idle labour/ tools/ establishment/ plant etc, during this period shall not be the liability of the PMDC. The quoted rates should include for all such contingencies.

II. Whatever the reasons be, no claim for idle labour, additional establishment, cost of labour charges of tools and plants would be entertained under any circumstances.

④. **Supply and Installation of 500-AMPERES POWER BREAKERS and 80-KVAR CAPACITORS (02 NOS EACH)**

**1- Power Breakers Specification**

**2- Capacitors Specification**

**1. Power Breakers specification data: -**

- i) Standard IEC-60947-2
- ii) Rated Operational Voltage **440-Volts**
- iii) Rated Operational Current **500-Amperes**
- iv) Breaker Capacity (Ics/Icu) **35-kA**
- v) Rated Impulse withstand Voltage **Uimp 8K**
- vi) Frequency **50-Hz**
- vii) Poles **3-poles**

**2. Capacitors specification data: -**

- i) **Operating Voltage:-**  
415 Volts
- ii) **Frequency**  
50 Hz
- iii) **Phase**  
Three Phase
- iv) **Interrupting Rating**  
10 kA
- v) **Operating Temperature**  
-40 C<sup>0</sup> to +40 C<sup>0</sup>
- vi) **Dielectric Film**  
Dry, Self healing metallized polypropylene
- vii) **Discharge**  
Integrated discharge resistors

Note:- Existing systems that connect the incoming 440-volts supply to compressors with breakers and capacitors have to be disconnected and joined/connected the incoming supply to the power breakers and capacitors.

The bidders are advised to visit and examine the site of the works and its surroundings and to obtain for itself on their own responsibility, all information that may be necessary for preparing the bid and entering in to contract agreement. The cost incurred in visiting the site shall be at the bidders own expense. The bidder will have to examine the area for installation.

#### **OTHER TERMS AND CONDITIONS:-**

- i) The tenderer is bound to carry out any or all items of work necessary for the completion of the job even though such items are not included in the quantities and rates.
- ii) The Contractor shall make necessary arrangement for watch and ward.
- iii) No compensation shall be admissible for any loss suffered by the Contractor during the execution of the work. It shall be the Contractor's sole responsibility to protect PMDC's staff, his employees and property against accidents from any cause and he shall indemnify PMDC against any claims for damage for injury to person or property, resulting from any such accidents with necessary Insurance cover.
- iv) Any damages caused to the building / premises during the execution of the work shall be made good by the Contractor at his risk and cost and if necessary, through suitable Insurance cover.
- v) The work is to be undertaken only during working days and during the office timings. The work cannot be undertaken on Friday and any declared holidays except with the written approval of the PMDC.
- vi) The contractor has to make his own arrangement of stay for his employees outside the PMDC premises.
- vii) The Contractor shall use necessary safety equipment and maintain all safety measures during the execution of works and ensure compliance of Safety Code as per Rules and Regulations in force.

- viii) The Contractor shall engage necessary qualified and experienced supervisory staff at his cost during the execution of the work for attending to day to day affairs.
- ix) The Contractor should have necessary Contract License and comply with the Labour Laws as applicable.
- x) Documents for authorized dealer of manufacturing company must be attached/provided.
- xi) Notwithstanding anything stated above, PMDC reserves the right to assess the bidder's capability and capacity to perform the contract, should the circumstances warrant such assessment in the overall interest of PMDC.
- xii) The decision of PMDC in awarding the work shall be final and cannot be subjected to arbitration.
- xiii) PMDC reserves the right to accept / negotiate / reject any Quotation either in whole or in part without assigning any reasons therefore whatsoever and without entering into any further correspondence and hence, PMDC shall be under no obligation to accept the lowest or any other Quotations received in response to this Quotation. The decision of PMDC in this regard shall be final and indisputable.
- xiv) The rates quoted should be firm, workable, reasonable and should include all kinds of Taxes, Duties, Work Contract Tax, Octroi, GST etc. as applicable, overheads and profit etc. No separate charges for carriage or labour would be made. There is no question of extra payment above the quoted rate under any circumstance. In case of any variation in quantity or value, the same will not be made as a subject matter for dispute by the bidder.
- xv) PMDC also reserves the right of supersession of any of the conditions stipulated in the Quotation Document.
- xvi) The contractor shall require shifting some of the furniture, electrical items, etc., to some other places within the office premises during the time of work and may also be required to place them in the appropriate place after completing the work. No extra payment will be made for those works.
- xvii) There will be other works being carried out by various contractors in the said office premises. Hence Care should be taken not to damage any other works and also to coordinate with the other work contractors.

- xviii) **Testing of Materials:** The contractors are required to submit samples of various materials, items, fittings, etc for the approval of the PMDC. The materials of brand names, if any, given in the contract shall only be selected.
- xix) **Transportation charges, loading charges and unloading charges** will be on the contractor side and including all taxes.
- xx) **Defect Liability Period:** The defects liability period shall be of One Year and shall commence from the date of virtual completion. Any defect that may appear within the defects liability period, shall be rectified by the contractor without any extra cost to the employer. In case of failure to do so within 10-days from such notice, the employer may get such rectification works carried out through any other firm and expenditure incurred shall be recovered from any money due to the contractor at the cost and risk of the contractor. Only, after all the defects pointed out during the Defects liability period have been rectified by the contractor to the satisfaction, thereafter, the Security Deposit/RMD will be refunded to the contractor.
- xxi) **Final bill:** The final bill has to be submitted by the contractors as early as possible after the completion of the work.
- xxii) **Co-ordination and Monitoring:** The contractor's site supervisor/ engineer will be coordinating and monitoring the project and report the progress to PMDC on weekly basis.
- xxiii) In case the proposed work is held up for any site conditions not attributable to the contractor or for any decisions/ instructions/ want of details from PMDC or for any of the untoward situation, the contractor shall be allowed reasonable extension of time by the PMDC but any additional/ extra claim for payment to idle labour/ tools/ establishment/ plant etc, during this period shall not be the liability of the PMDC. The quoted rates should include for all such contingencies.
- II. Whatever the reasons be, no claim for idle labour, additional establishment, cost of labour charges of tools and plants would be entertained under any circumstances.

03 **Supply of C.T(Current Transformer) 03-Nos, P.T (Potential Transformer) 03-Nos & H.T KITS 6-Nos FOR WAPDA TROLLIES: -**

**Voltage Transformer Specification Data:-**

IEC Standard	IEC-60044-2
Rated Voltage	12 KV
Insulation Level	12/36/95 KV
Frequency	50-Hz, 1.5 Um 30-Sec
VA	100
Class	0.5
Primary	A-B 11000/1.732
Secondary	1a-ab 110/1.732

**Current Transformer Specification Data:-**

IEC Standard	IEC-60044-1
Um	12 KV
Insulation Level	12/36/95 KV
Frequency	50-Hz
Ith	25KA
Secondary	1S1-1S2, Ratio100/5 A, VA 15, Class 5P20
Secondary	2S1-2S2, Ratio100/5 A, VA 10, Class 0.5M5

~~Out of Six 11KV kits, three sets are of Indoor Kits and Three Sets are of Outdoor Kits, Kits should be of Standard rules.~~

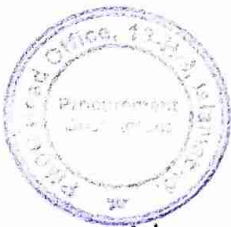

**OTHER TERMS AND CONDITIONS: -**

- The tenderer is bound to carry out any or all items of work necessary for the completion of the job even though such items are not included in the quantities and rates.
- The Contractor shall make necessary arrangement for watch and ward.
- No compensation shall be admissible for any loss suffered by the Contractor during the execution of the work. It shall be the Contractor's sole responsibility to protect PMDC's staff, his employees and property against accidents from any cause and he

shall indemnify PMDC against any claims for damage for injury to person or property, resulting from any such accidents with necessary Insurance cover.

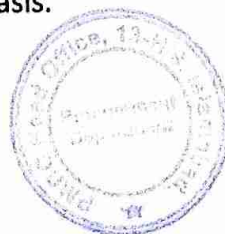

- iv) Any damages caused to the building / premises during the execution of the work shall be made good by the Contractor at his risk and cost and if necessary, through suitable Insurance cover.
