Govt approves child-friendly c... to ease early schooling burden

By Kashif Abbasi

ISLAMABAD: A technical committee on the New National Curriculum on Tuesday in principle approved the draft of the new scheme of study aimed at reducing the burden on children and properly introducing new subjects, including social sciences and civic education at schools.

"Today, the scheme of study was presented, and participants in principle approved it. In the coming days, after a little more deliberation, this scheme of study will be implemented," said Federal Secretary of Education Nadeem Mahbub.

Speaking to Dawn after the meeting, Mr Mahbub said before the first meeting of the technical committee, the federal and provincial governments surveyed schools, and it was noticed that children from nursery to grade two were overburdened.

"Particularly, one and two graders face difficulty in learning because of being overburdened," the secretary said, adding that in light of surveys, "stakeholders decided to take steps to ease the burden on students at least from nursery to grade 2".

The secretary said it was decided that students of these classes should be given some flexibility, and they should be taught through attractive and fun learning activities instead of burdening them.

"We want to make the syllabus more effective and easier for children to understand," he said. Similarly, Mr Mahbub said there was a need for properly re-launching civic subjects, which used to be properly taught at school level, but with the passage of time, schools started ignoring it.

"Now once again we will launch this subject under the name social sciences and civic," he said, adding that some other important subjects will also be included.

"There is a need to teach students about life safety skills, climate change, financial literacy, etc so we are working on this," he said.

The secretary further said the ministry wanted to introduce new syllabus for the next academic session.

To a query, he said all stakeholders – the federal government and provinces – were on the same page on this issue.

Meanwhile, a press release issued by the education ministry stated that the third meeting of the technical committee, which was also attended by Minster of State for Education Wajiha Qamar and Secretary of Education Nadeem Mahbub, discussed the said draft in detail.

The session of technical committee was co-chaired by Dr Nasir Mehmood, Vice Chancellor, Allama Iqbal Open University.

Immediate release of political prisoners in GB demanded

By Jamil Nagri

GILGIT: The Awami Workers Party (AWP) on Tuesday has demanded the immediate and unconditional release of political activists in Gilgit-Baltistan, including senior lawyer Advocate Ehsan Ali.

According to a statement, a party meeting was held chaired by its president, Baba Jan, to review the current political situation in the region and the arrest of political activists recently and alleged human rights violations.

The meeting unanimously passed a resolution which expressed serious concern over the health of the imprisoned senior lawyer and chairman of Gilgit-Baltistan Awami Action Committee (AAC), Advocate Ehsan Ali.

The AWP termed the arrests of several political and social activists including Advocate Ehsan Ali, Advocate Nafees, Advocate Taaruf Abbas, Fida Hussain Isar, Manzar Maya, Abrar Bagoro, Sahib Khan, Mehr Ali, Masood ur Rehman, Waheed ul Hassan, Asghar Shah, Engineer Mehboob, Engineer Nadeem, and Mir Babar – as political victimisation and called for their immediate release.

The meeting also condemned the arrest of Baltistan Students Federation leader Dr Aoun Balti in Islamabad and Adnan Rawat's detention under the Anti-Terrorism Act, and demanded their immediate release.

Participants further stated that the arrests of lawyers violate the Lawyers Protection Bill and undermine the rule of law, calling it an attempt to suppress the legal community.

The use of the Anti-Terrorism Act against peaceful political workers, journalists, and lawyers was strongly criticised.

The inclusion of Shabbir Mayar in the Fourth Schedule and the reported denial of medical treatment were termed serious human rights violations. The party demanded his immediate removal from the list to ensure access to healthcare.

The statement announced that the AWPn will participate in the upcoming Gilgit-Baltistan Assembly elections.

The meeting demanded that GB Caretaker Chief Minister Justice (r) Yar Muhammad withdraw baseless and fabricated FIRs against political workers, ensure the unconditional release of political workers, and uphold constitutional rights, rule of law, and human rights in the region.

Earlier, Lawyers across Gilgit-Baltistan observed a strike and boycotted court proceedings on Monday to protest the arrest of a senior lawyer and other activists under the Anti-Terrorism Act, following a strike call by the Gilgit-Baltistan High Court Bar Association.

SPECIFICATIONS

[Note for Preparing the Specifications]

A set of precise and clear specifications is a prerequisite for bidders to respond realistically and competitively to the requirements of the user without qualifying their Bids. The specifications must be drafted to permit the widest possible competition and, at the same time, present a clear statement of the required standards of workmanship, materials, performance of the works. Only if this is done objectives of economy, efficiency, and fairness in procurement will be realized and responsiveness of Bids can be ensured, and the subsequent task of bid evaluation can be facilitated. The specifications should require that materials to be incorporated in the works be new, unused, and of the most recent or current models, and incorporated all recent improvements in design and materials unless provided for otherwise in the contract.

Samples of specifications from similar to previous procurements are useful in this respect. The use of metric units is encouraged. Depending on the complexity of the works and the repetitiveness of the type of procurement, it may be advantageous to standardize the Technical Specifications that should cover all classes of workmanship, materials and equipment although not necessarily to be used in a particular procurement.

Care must be taken in drafting specifications to ensure that they are not restrictive. In the specification of standards for equipment, materials, and workmanship, recognized international standards should be used as much as possible. The specifications shall consider all conditions but not limited to seismic conditions, weather conditions and environmental impact. The specifications should state that equipment, materials, and workmanship that meet other authoritative standards, and which ensure at least a substantially equal quality than the standards mentioned, will also be acceptable. The following clause may be inserted in the Specifications.

Sample Clause: Equivalency of Standards and Codes

Wherever reference is made in the Specifications to specific standards and codes to be met by Works to be furnished and tested, the provisions of the latest current edition or revision of the relevant shall apply, unless otherwise expressly stated in the Contract. Other authoritative standards that ensure equivalence to the standards and codes specified will be acceptable.]
