If this is not the case and if it is established that Professional staff were offered in the proposal without confirming their availability, the Consultant may be disqualified. **APPENDIX.**

**FINANCIAL NEGOTIATIONS - BREAKDOWN OF REMUNERATION RATES**

(Not to be used when cost is a factor in the evaluation of Proposals)

**1. Review of Remuneration Rates**

1.1 The remuneration rates for staff are made up of salary, social costs, overheads, fee that is profit, and any premium or allowance paid for assignments away from headquarters. To assist the firm in preparing financial negotiations, a Sample Form giving a breakdown of rates is attached (no financial information should be included in the Technical Proposal). Agreed breakdown sheets shall form part of the negotiated contract.

1.2 The PA is charged with the custody of funds from Government of Sindh and is expected to exercise prudence in the expenditure of these funds. The PA is, therefore, concerned with the reasonableness of the firm's Financial Proposal, and, during negotiations, it expects to be able to review audited financial statements backing up the firm's remuneration rates, certified by an independent auditor. The firm shall be prepared to disclose such audited financial statements for the last three years, to substantiate its rates, and accept that its proposed rates and other financial matters are subject to scrutiny. Rate details are discussed below.

(i) **Salary**

This is the gross regular cash salary paid to the individual in the firm's home office. It shall not contain any premium for work away from headquarters or bonus.

(ii) **Social Costs**

Social costs are the costs to the firm of staff's non-monetary benefits. These items include, inter alia, social security including pension, medical and life insurance costs, and the cost of a staff member being sick or on vacation. In this regard, the cost of leave for public holidays is not an acceptable social cost nor is the cost of leave taken during an assignment if no additional staff replacement has been provided. Additional leave taken at the end of an assignment in accordance with the firm's leave policy is acceptable as a social cost.

(iii) **Cost of Leave**

The principles of calculating the cost of total days leave per annum as a percentage of basic salary shall normally be as follows:

$$\text{Leave cost as percentage of salary} = \frac{\text{total days leave} \times 100}{[365 - w - ph - v - s]}$$

---

1, Where w = weekends, ph = public holidays, v = vacation, and s = sick leave.

It is important to note that leave can be considered a social cost only if the PA is not charged for the leave taken.

(iv) **Overheads**

Overhead expenses are the firm's business costs that are not directly related to the execution of the assignment and shall not be reimbursed as separate items under the contract. Typical items are home office costs (partner's time, no billable time, time of senior staff monitoring the project, rent, support staff, research, staff training, marketing, etc.), the cost of staff not currently employed on revenue-earning projects taxes on business activities and business promotion costs. During negotiations, audited financial statements, certified as correct by an independent auditor and supporting the last three years' overheads, shall be available for discussion, together with detailed lists of items making up the overheads and the percentage by which each relates to basic salary. The PA does not accept an add-on margin for social charges, overhead expenses, etc., for staff who are not permanent employees of the firm. In such case, the firm shall be entitled only to administrative costs and fee on the monthly payments charged for subcontracted staff.

(v) **Fee or Profit**

The fee or profit shall be based on the sum of the salary, social costs, and overhead. If any bonuses paid on a regular basis are listed, a corresponding reduction in the profit element shall be expected. Fee or profit shall not be allowed on travel or other reimbursable expenses, unless in the latter case an unusually large amount of procurement of equipment is required. The firm shall note that payments shall be made against an agreed estimated payment schedule as described in the draft form of the contract.

(vi) **Away from Headquarters Allowance or Premium**

Some Consultants pay allowances to staff working away from headquarters. Such allowances are calculated as a percentage of salary and shall not draw overheads or profit.

(vii) **Subsistence Allowances**

Subsistence allowances are not included in the rates but are paid separately and in local currency. No additional subsistence is payable for dependents, the subsistence rate shall be the same for married and single team members.

Standard rates for the particular country may be used as reference to determine subsistence allowances.

**2. Reimbursable expenses (FOR ANY ADDITIONAL SERVICES)**

- 2.1 The financial negotiations shall further focus on such items as out-of-pocket expenses and other reimbursable expenses. These costs may include, but are not restricted to, cost of surveys, equipment, office rent, supplies, international and local travel, computer rental, mobilization and demobilization, insurance, and printing. These costs may be either unit rates or reimbursable on the presentation of invoices, in foreign or local currency.

**3. PA Guarantee**

3.1 Payments to the firm, including payment of any advance based on cash flow projections covered by a PA guarantee, shall be made according to an agreed estimated schedule ensuring the consultant regular payments in local and foreign currency, as long as the services proceed as planned.

### 1.1 INTRODUCTION

Hyderabad, the second-largest metropolitan city of Sindh, serves as a major administrative, commercial, and socio-economic hub. Over the past decade, the city has witnessed rapid urban expansion, population growth, and increased motorization, resulting in significant pressure on its existing road infrastructure

Qasim Chowk is one of the most critical traffic junctions in Hyderabad, acting as a convergence point for major corridors including the National Highway (N-5), Wadhu Wah Road, Autobahn Road, and internal city roads. The intersection accommodates a high volume of mixed traffic, including heavy vehicles, public transport, and local commuter flows, leading to severe congestion during peak hours.

The absence of grade separation at Qasim Chowk has resulted in frequent traffic bottlenecks, increased travel time, higher fuel consumption, and elevated risks of road accidents. Additionally, the presence of commercial activities, pedestrian movements, and roadside encroachments further complicates traffic management at this junction

At present, Qasim Chowk functions as a major at-grade intersection, experiencing Severe traffic congestion during peak hours Long vehicle queues and delays, High conflict points between crossing traffic Increased risk of accidents. The junction carries mixed traffic, including: Heavy vehicles (trucks, buses) Passenger cars Motorcycles and rickshaws.

The proposed project comprises the construction of an underpass at Qasim Chowk, Hyderabad, along with all associated civil, structural, drainage, traffic management, and utility relocation works. The project aims to facilitate uninterrupted traffic flow at one of the busiest intersections connecting Hyderabad City Qasimabad Autobahn Road Wadhu Wah Road.

The proposed underpass will be a reinforced concrete structure designed to accommodate multi-lane traffic movement with adequate vertical clearance and proper drainage arrangements. The project includes:

- Construction of main underpass structure (RCC box / frame type) Development of entry and exit ramps.
- Road pavement works including sub-base, base, and asphalt layers Stormwater drainage system with sump pits and pumping arrangements.
- Street lighting and traffic management systems
- Pedestrian safety measures and service road improvements.
