SCOPE OF WORK

Sindh Prisons & Corrections Service is implementing automation and digital connectivity projects throughout Sindh. Under this procurement, a total of 28 sites shall be connected through a secured MPLS Layer-III VPN network comprising one (01) Aggregation Site at the Inspectorate General of Sindh Prisons & Corrections Service, one (01) Disaster Recovery (DR) Site at the Office of the Deputy Inspector General of Prisons, Karachi Region, and twenty-six (26) Spoke Sites. The Aggregation Site and DR Site shall each have 270 Mbps CIR bandwidth, while each Spoke Site shall have 10 Mbps CIR bandwidth. The Service Provider shall establish, commission, monitor, maintain and support the complete MPLS Layer-III VPN connectivity on an end-to-end basis in accordance with this tender and the SLA.

The firm / service provider having legal presence in Pakistan and authorized by Pakistan Telecommunication Authority to provide telecommunication services. The competent authority may check / verify availability of the best services and may opt services on the basis of the best coverage with competitive rate.

The firm will ensure that the data traveling over the VPN is secured and encrypted and it cannot be tapped as per IP Sec Standard RFC (4301, 6071, 2041). The firm will ensure that the network is secured and any unauthorized access to the network is blocked.

RESPONSIBILITIES OF THE SERVICE PROVIDER

1. DATA CENTER / AGGREGATION

1.1. The Data Centre at the Inspectorate General of Sindh Prisons & Corrections Service, Karachi, shall be the primary Aggregation Site. The Disaster Recovery (DR) Site shall be located at the Office of the Deputy Inspector General of Prisons, Karachi Region. The network shall comprise twenty-six (26) Spoke Sites connected to the primary Aggregation Site through secured MPLS Layer-III VPN connectivity.

1.2. The Service Provider shall provide secured MPLS Layer-III VPN connectivity at the Aggregation Site with 270 Mbps CIR bandwidth and at the DR Site with 270 Mbps CIR bandwidth. Both Aggregation and DR connectivity shall be provided over Fiber only, unless otherwise approved in writing by the Procuring Agency.

- 1.3. SERVICE PROVIDER shall utilize the best possible technology to secure the connection, established between aggregation and its client(s).
- 1.4. SERVICE PROVIDER will install hardware / equipment(s) at Data Centre, if required in establishment of secure VPN connection.
- 1.5. SERVICE PROVIDER will be responsible to maintain hardware / equipment(s), if installed as per scope of work.
- 1.6. The Service Provider shall ensure 24×7 (round-the-clock) service availability and technical support. The Service Provider shall proactively monitor all MPLS links, aggregation connectivity, DR connectivity, last-mile links, CPE/network equipment supplied or installed by it, alarms and redundancy paths through a centralized Network Operations Centre (NOC). It shall detect, diagnose, record, notify and rectify any outage, degradation, packet loss, latency, jitter, bandwidth reduction or other service-impacting fault without waiting for a complaint from the Procuring Agency. Any service interruption or material degradation shall be immediately notified to the Procuring Agency with the affected site, fault reference number, cause (where known), action taken and expected restoration time. For faults requiring physical intervention, the Service Provider shall mobilize its technical resources immediately and restore the affected service at the earliest possible time and, in any event, within the prescribed SLA restoration limit and not later than 48 hours, unless otherwise approved in writing by the Procuring Agency due to circumstances beyond the Service Provider's reasonable control. The Service Provider shall maintain and provide activity/event logs on demand and as part of the monthly service report.
- 1.7. The Service Provider shall provide and maintain adequate service redundancy/failover arrangements for the MPLS network, including aggregation and last-mile connectivity, wherever technically feasible, so that failure of a primary link or network component does not unnecessarily result in loss of connectivity.
- 1.8. The Service Provider shall be solely responsible for 24×7 proactive monitoring of all MPLS Layer-III VPN links, aggregation links, DR connectivity, last-mile connectivity, CPE/network equipment installed by the Service Provider and redundancy paths. The Procuring Agency shall not be required to continuously monitor individual links or report outages as a precondition for the Service Provider's SLA obligations or application of applicable service-level penalties.
- 1.9. Bidder will submit cost details as per given proforma, **annexed as "A"**.

2. MPLS LAYER III VPN CONNECTIVITY

- 2.2.1. The Service Provider shall ensure provision, commissioning and continuous operation of MPLS Layer-III VPN connectivity for all twenty-eight (28) sites listed in Annexure-A and Annexure-B, comprising one (01) Aggregation Site, one (01) DR Site and twenty-six (26) Spoke Sites.
- 2.2.2. The Service Provider shall be responsible for supply, installation, configuration, commissioning, maintenance and replacement of all hardware/equipment required for establishment and continued operation of the connectivity, where such hardware/equipment forms part of its proposed solution or scope of service.
- 2.2.3. SERVICE PROVIDER will submit service cost as per given proforma.
- 2.2.4. Bidder shall submit complete cost details as per the prescribed Financial Proposal at Annexure-A, covering the Aggregation Site, DR Site and all twenty-six (26) Spoke Sites.
- 2.2.5. The firm will ensure that the provided network is MPLS L3 VPN for aggregation only and will not allow SIM to SIM (i.e. Node to Node) communication as that is being controlled on Packet Core entity.
- 2.2.6. The firm will ensure that the network follows the IPv4 IP sec protocols, whereas IPv6 IP sec protocols will be supported in future when available.

3. SERVICES & SUPPORT

Service Provider will ensure the following:

- 3.1. Availability of dedicated backend technical support on a round-the-clock (24×7) basis for service-related needs.
- 3.2. Availability of dedicated landline number.
- 3.3. Availability of resources across the province, if required.
- 3.4. Availability of dedicated support for the procured service.
-

4. GENERAL REQUIREMENTS

- 4.1. All the charges / amount mentioned in the document i.e., OTC (One Time Cost), MRC (Monthly Recurring Cost) etc. should be inclusive of all applicable government taxes.
- 4.2. Deployment timeline to be mentioned clearly.

- 4.3. The initial network shall comprise twenty-eight (28) sites: one (01) Aggregation Site, one (01) DR Site and twenty-six (26) Spoke Sites. The Procuring Agency may increase or decrease the number of sites during the contract period in accordance with the applicable provisions of the bidding documents and contract.
- 4.4. Standard and latest security hardware/software solution must be used to ensure fully secure (i.e. authentication, encryption) and private end-to-end communication between client hardware and Data Center.
- 4.5. The firm shall provide the Customer with Sales Services Channels & Resources as a total service level commitment.
- 4.6. The firm shall ensure provision of requisite enhancements and improvements to ensure high quality of service to the Customer.
- 4.7. The firm shall take reasonable steps to ensure that the Numbers and personal data of the Customer are not disclosed to any third party or personnel other than for the provision of services.
- 4.8. The firm shall ensure network scalability and shall be capable of extending the MPLS Layer-III VPN network beyond the current twenty-eight (28) sites, subject to the Procuring Agency's requirements and applicable contractual/procurement provisions.
- 4.9. The firm shall ensure 270 Mbps CIR bandwidth at the Aggregation Site and 270 Mbps CIR bandwidth at the DR Site, both over Fiber only. Each of the twenty-six (26) Spoke Sites shall have 10 Mbps CIR bandwidth. All links shall be full-duplex with equal uplink/downlink speed. The Procuring Agency may require future bandwidth enhancement subject to technical feasibility and contractual provisions.
- 4.10. The firm shall conduct a technical survey of the Customer's premises with mutual consent of the Procuring Agency and install Equipment to improve network conditions after feasibility analysis.
- 4.11. Multiple computers should be able to connect concurrently to the same connection via network switch;
- 4.12. The provided bandwidth must be CIR – full duplex with the same uplink/downlink speed;
- No traditional internet would be allowed on the network.
- 4.13. The Service Level Agreement (SLA) provisions contained in this tender shall form an integral part of the Contract and shall not be subject to material post-award negotiation. The Service Provider shall remain fully responsible for end-to-end service delivery, including its own network, backbone, aggregation, DR connectivity, last-mile connectivity, fiber/radio links for Spoke Sites, CPE and other equipment supplied or installed by it, configuration, monitoring, maintenance, redundancy, fault management, reporting and restoration, irrespective of whether any portion of the service is provided through a subcontractor, carrier, infrastructure provider or other third party. The Service Provider shall remain responsible for the performance of such third parties.
- 5. SLA DOWNTIME / SERVICE AVAILABILITY PENALTIES

5.1 — Service Availability

The Service Provider shall maintain service availability at each site in accordance with the SLA. Service interruption, degradation or failure attributable to the Service Provider's

network, equipment, transmission medium, last-mile connectivity, configuration, maintenance, monitoring failure, or any other cause within its control shall be the responsibility of the Service Provider.

5.2 — Downtime Measurement

Downtime shall be measured from the time the service becomes unavailable or materially degraded until the service is restored to the contracted CIR and normal operating condition. Intermittent outages shall be aggregated for the applicable monthly period. The Service Provider shall not delay the commencement of downtime by requiring a complaint, ticket or manual confirmation from the Procuring Agency.

5.3 — Monitoring Records

The Service Provider shall maintain automated, time-stamped monitoring logs for all sites covering availability, outages, alarms, degradation, packet loss, latency, restoration and relevant network events. Such records shall be retained throughout the contract period and made available to the Procuring Agency on demand and through a consolidated monthly service-availability report.

5.4 — Evidence of Downtime

Where the Service Provider's monitoring records are unavailable, incomplete or not produced when required, the Procuring Agency may determine downtime on the basis of its own monitoring records, incident reports, technical evidence or other reasonably available information. Failure to produce monitoring records shall not relieve the Service Provider of its SLA obligations.

5.5 — Planned Maintenance

Planned maintenance shall be carried out only with prior written approval/notice in accordance with the SLA and shall be scheduled to minimize service disruption. Unapproved or improperly notified maintenance shall be treated as service downtime and shall not be excluded from SLA calculations.

5.6 — Monthly Reporting and Payment

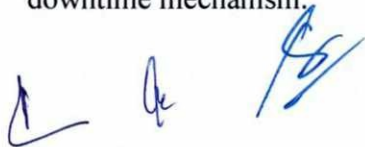

Each monthly invoice shall be accompanied by a site-wise service availability report, downtime report, incident summary and applicable SLA penalty calculation generated from the Service Provider's centralized monitoring system. Payment shall be subject to verification of service availability and adjustment of applicable penalties.

5.7 — Proactive Fault Management

The Service Provider shall proactively detect, open and manage incidents through its NOC and shall provide the Procuring Agency with a fault reference number and status updates until restoration. The Service Provider shall not require the Procuring Agency to first identify or report an outage before commencing troubleshooting.

5.8 — Penalty Application

The monthly Link Down penalty table below shall apply to operational service downtime after commissioning. Liquidated damages under the Contract shall apply to delayed installation/commissioning and shall not be used as a substitute for the operational SLA downtime mechanism.

Monthly Aggregated Link Downtime	Penalty on Monthly Invoice
Less than or equal to 3 Hours Monthly	No Penalty
More than 3 Hours and Less than or equal to 6 Hours Monthly	2 % of Monthly Invoice
More than 6 Hours and Less than or equal to 10 Hours Monthly	5 % of Monthly Invoice
More than 10 Hours and Less than or equal to 15 Hours Monthly	10 % of Monthly Invoice
More than 15 Hours and Less than or equal to 20 Hours Monthly	20 % of Monthly Invoice
More than 20 Hours and Less than or equal to 30 Hours Monthly	30 % of Monthly Invoice
More than 30 Hours and Less than or equal to 40 Hours Monthly	40 % of Monthly Invoice
More than 40 Hours and Less than or equal to 50 Hours Monthly	50 % of Monthly Invoice
More than 50 Hours and Less than or equal to 60 Hours Monthly	60 % of Monthly Invoice
More than 60 Hours	100 % of Monthly Invoice

Section 4 — Financial Evaluation Formula (QCBS – 80% Technical, 20% Financial)

4.1 Evaluation Methodology

The procurement shall be conducted under the **Quality and Cost Based Selection (QCBS)** method, with the following weightage:

- **Technical Proposal:** 80%
- **Financial Proposal:** 20%

Only those bidders who achieve the **minimum qualifying technical score** (as specified in the Tender Documents) shall be considered for financial evaluation.

4.2 Financial Scoring Formula

The **financial score (Sf)** of each technically qualified bidder shall be calculated as follows:

$$Sf = \left(\frac{Fm}{F} \right) \times 20$$

Where:

- **Fm** = Lowest evaluated financial bid price
- **F** = Financial bid price of the bidder under evaluation
- **20** = Maximum financial score

4.3 Combined Score Calculation

The **total combined score (St)** shall be calculated as:

$$St = (T \times 0.80) + (Sf)$$

Where:

- **T** = Technical score obtained by the bidder (out of 100)
- **Sf** = Financial score (out of 20)

The bidder achieving the **highest combined score (St)** shall be ranked first and considered for award of contract.
