## SECTION – 1

### SCOPE OF WORK / TERMS OF REFERENCE

#### 1. Introduction

1000 Industrial Stitching Units (Phase-II) is a PSDP funded project of Ministry of Industries & Production, Government of Pakistan, being executed by Small and Medium Enterprises Development Authority (SMEDA) for provision of matching grants for export development. Phase-II of the project focuses exclusively targeting export-oriented Small and Medium Enterprises (SMEs) already engaged in textile-related exports or those intending to venture into the export market. The project is aligned with the roadmap of Uraan Pakistan, specifically focusing on increasing exports and developing SMEs.

#### 2. Objectives of the Assignment

The aim of pre-qualifying machinery suppliers is to ensure the selection of competent, reliable and experienced firms capable of supplying, installing and commissioning of industrial stitching machines that meet international quality standards thereby enhancing the productivity, efficiency and export competitiveness of export-oriented units. Specifically, the prequalification process is targeted:

- To identify and pre-qualify technically qualified and financially sound machinery suppliers with proven experience in industrial stitching machines.
- To ensure the supply of high-quality, energy-efficient, and internationally compliant machinery suitable for export-oriented manufacturing units.
- To confirm suppliers' capability for proper installation, testing, commissioning, and after-sales support, including training and maintenance services.
